The different present wineries will be leading the tastings of their wines and will have an imparted time in order to present their winery, their wines and to give the tasting.

Px / seminar: 10 to 15 importers, sommeliers, hotel & restaurant owners, distributors, press

Speed Wine Tastings Lunches & Dinners

We will be organizing two lunches & two dinners in Cabos (TBD): two dedicated to importers & distributors, and two dedicated to hotels / restaurants owners and sommeliers.

The idea here is to organize original events with a rotation of 6 wineries per lunch/dinner from table to table: simply said, the idea is for the wineries to go from table to table at every change of dish, having the opportunity to talk about their wineries and their wines with the different guests of the industry and to have qualitative and convivial time with them in order to build strong relationships.

Local sommeliers & actors will also be make available for the wineries which cannot travel.
